Town Board of Dayton  
721 Walnut Street  
Dayton IN 47941

Dear Town Board,

The Dayton United Methodist Church has no opinion on the annexation or development of the property to the south of the church. It does not conflict with our beliefs and goals to make our community a better place to live.

However, we believe it only fair to the Town of Dayton that we respond to speculation that we are required to install utilities through the church property. It is our opinion, in consultation with our attorney, that we will not participate in the cost of installing utilities, as per the Utility Service Agreement of February 5, 2002, between the Town of Dayton and the Dayton United Methodist Church, and as per the Ordinances of the town of Dayton. Hopefully it is only speculation, and this letter will have little effect.

May God guide the Town Board in your decisions in what is beneficial for the Town of Dayton, the property owners, and the developers.

Prayerfully,

---

Chairman of Administrative Council
